Over the years the home has received numerous upgrades and most recently the roofing shingles on the home were replaced. Previous renovations and upgrades include, windows, doors, flooring, bathroom upgrades, and also a detached garage. Entering at the side, you land in a porch area that opens to the spacious eat in kitchen with patio doors that lead to a deck at the back of the home. Appliances will remain with the purchase. From the kitchen you go to the living room and from here you can proceed down the hall to two of the bedrooms and the bathroom. The primary bedroom was an addition to the home and sits on a 4 foot frost wall and offers in floor heating. There is a third bedroom located at the front of the home and this would also make a nice office/den area if only two bedrooms were needed. The basement is undeveloped and used mainly for storage and laundry. Outside there is a detached garage that is wired and heated. There is an above ground pool that is separate from the house, it is not currently opened but all equipment will remain. Roofing shingles replaced in 2023 The lot stretches behind the home and could be cleared if more space was needed or desired. Call today for your private viewing.
